The teleological or physico-theological argument, also known as the argument from design, or intelligent design argument is an argument for the existence of God or, more generally, for an intelligent creator based on perceived evidence of deliberate design in the natural world.. The earliest recorded versions of this argument are associated with Socrates in ancient Greece, although it has been ...

Introduction. Even though they sound almost similar, socialism and National Socialism are different political ideologies that first emerged in the 19 th century. While aspects of National Socialism such as the importance of maintaining the Übermensch, or race of supermen, were first embraced by 18 th and 19 th German leaders, this political ideology only became the German state's official ...
