Dynamical Systems And Cosmology Astrophysics

Zwicky has been called to Caltech in 1925 by Millikan Millikan, (1868-1953) who got in 1923 the nobel prize for his work on the electric elementary charge with the (Millikan oil experiment) expected from Zwicky first rank theoretical research in the topic of quantum mechanics of atoms and metals. During the 20ies and 30ies, Zwicky got attracted more and more by astrophysics.

Our faculty conduct landmark theoretical research ranging from the quark to the cosmos. These diverse areas of exploration make the UCLA Astronomy & Astrophysics Dvision an internationally recognized destination for scholarship and science.

About our faculty | UCLA Division of Astronomy & Astrophysics

02-13-19. Carl Rodriguez (MIT) From Stellar Dynamics to Gravitational Waves: How to Merge Two Black Holes . Since the first detection three years ago, gravitational waves have promised to revolutionize our understanding of compact objects, binary evolution, general relativity, and cosmology.

Astrophysics Colloquium | UCLA Division of Astronomy ...

XXVIIth International Conference on Supersymmetry and Unification of Fundamental Interactions (SUSY 2019), hosted by Texas A&M University - Corpus Christi during May 20-24, 2019, will provide a unique venue to discuss and understand the status of SUSY, connection between particle physics and cosmology, supersymmetry and its alternative, Higgs sector, neutrino sector, flavor sector, dark ...

Meetings/Workshops on Astronomy, Astrophysics and ...

COLLEGE OF ARTS & SCIENCES ASTRONOMY Detailed course offerings (Time Schedule) are available for. Spring Quarter 2019; Summer Quarter 2019; Autumn Quarter 2019

ASTRONOMY - University of Washington

Sarabadani Tafreshi, Saeedeh Postdoctoral Research Interests: Density functional theory (DFT) study of catalytic processes on heterogeneous systems, extended surfaces and nano-structures in the area of material chemistry,

Faculty - Department of Physics - Sharif

Degree Options. The academic work of the Institute is organized into six divisions: Biology and Biological Engineering, Chemistry and Chemical Engineering, Engineering and Applied Science, Geological and Planetary Sciences, the Humanities and the Social Sciences, and Physics, Mathematics and Astronomy. Graduate study at the Institute is divided further into several graduate options, which are ...

Degree Options - Caltech Graduate Studies Office

Scott Tremaine has made seminal contributions to understanding the formation and evolution of planetary systems, comets, black holes, star clusters, galaxies, and galaxy systems.

Scott Tremaine | Institute for Advanced Study

Description of the non-equilibrium effects in reactive gas mixtures constitutes a grand challenge in physical-chemical gas-dynamics. Such processes are of great interest for the fields such as plasma physics, aerospace engineering, astrophysics, chemical engineering, etc.

Sessions - Minisymposia | ICNAAM 2019

Rutgers Physics News Three of our faculty members will be recognized by the University this year for their outstanding achievements. Andrew Baker will receive the Warren I. Susman Award for Teaching Excellence. This is the highest honor for outstanding and innovative performance in the classroom by a tenured faculty member offered by the University.

Rutgers University Department of Physics and Astronomy

Open access to 1,512,662 e-prints in the fields of physics, mathematics, computer science, quantitative biology, quantitative finance, statistics, electrical engineering and systems science, and economics.

arXiv.org e-Print archive

We revisit the accretion induced collapse (AIC) process, in which a white dwarf collapses into a neutron star. We are motivated by the persistent radio source associated with the fast radio burst 121102, which was explained by Waxman (2017) as a weak stellar explosion with a small ($\sim 10^{-5} M_{\odot}$) mass ejection.

TAXONOMY OF FIELDS AND THEIR SUBFIELDS. Revised 7/31/06. Respondents will be asked to assign each doctoral program to the fields below. The definition of a program is a unit that satisfies at least three out of the following four criteria:

TAXONOMY OF FIELDS AND THEIR SUBFIELDS - Where the Nation ...

The Sudbury Neutrino Observatory (SNO) was a neutrino observatory located 2100 m underground in Vale's Creighton Mine in Sudbury, Ontario, Canada. The detector was designed to detect solar neutrinos through their interactions with a large tank of heavy water. The detector was turned on in May 1999, and was turned off on 28 November 2006. The SNO collaboration was active for several years after ...
