

Education For The Future

Education For The Future

Imagine if in the future, your students could improve their alertness during the afternoon by 50%. I am pretty sure that could help you in your teaching, not to mention what it would do for your students' performance.

Future Education - News of Future

The Future of Education is a collection of articles and resources written by Dr Lesley Murrihy, considering modern learning environments across primary, secondary, tertiary and beyond.

Future of Education

What future for education? | Coursera

A strong education system, from early childhood to tertiary, will be critical to the redevelopment of greater Christchurch and its economy in the wake of the earthquakes of 2010 and 2011.

- Shaping Education - Future Direction

Introduction and overview of responses. For a millennium, universities have been considered the main societal hub for knowledge and learning. 1 And for a millennium, the basic structures of how universities produce and disseminate knowledge and evaluate students have survived intact through the sweeping societal changes created by technology—the moveable-type printing press, the Industrial ...

The Future of Higher Education | Pew Research Center

I recently availed myself of the chance to join and learn from many of the leading innovators and thinkers in the emerging blockchain industry at the Chamber of Digital Commerce's DC Blockchain Summit 2016, which billed itself (accurately, I think) as “a dialogue at the intersection of industry,

regulation, and innovation."The event had a strong financial services theme, although I met ...
