Groundwater In The Coastal Zones

Groundwater is a major source of water in Texas, providing about 60 percent of the 16.1 million acre-feet of water used in the state. The mission of the Groundwater Division is to collect, interpret, and provide accurate, objective information on the groundwater resources of Texas.

Groundwater Division | Texas Water Development Board

Submitted Drillers Reports (SDR) Database. The Submitted Drillers Report (SDR) Database is populated from the online Texas Well Report Submission and Retrieval System (TWRERS) which is a cooperative Texas Department of Licensing and Regulation (TDLR) and Texas Water Development Board (TWDB) application that registered water-well drillers use to submit their required reports.

Find excellent groundwater, drought, and groundwater quality information and educational resources here, as well as teaching materials and research products from Dr. Thomas Harter's groundwater research group.,

Groundwater in the News - Groundwater

In 1993, the country's groundwater, the source of drinking water for 97% of the rural population and a significant share of the urban population, was contaminated with arsenic. However, in 2004, 98% of the population already has access to an improved water source, a very high level for a low-income country. This has been achieved through the construction of hand pumps with the support of ...

Water supply and sanitation in Bangladesh - Wikipedia

Following is a list of freeware that provides tools for modeling groundwater flow and contaminant fate and transport. To learn more about a particular item, click on the item name.

Groundwater Modeling - EHSfreeware

The hyporheic zone is the region of sediment and porous space beneath and alongside a stream bed, where there is mixing of shallow groundwater and surface water. The flow dynamics and behavior in this zone (termed hyporheic flow or underflow) is recognized to be important for surface water/groundwater interactions, as well as fish spawning, among other processes.

Hyporheic zone - Wikipedia

Fitts Geosolutions, groundwater modeling software and consulting. AnAqSim (analytic aquifer simulator) - analytic element modeling at its best.
