The Laughing Monks (2002) by Akio Takamori. What is Ceramics? Known as an important plastic art, "Ceramics" (derived from Keramos, Greek for 'potter's clay') refers to items made from clay bodies and fired in a kiln to obtain the finished form. Outside of art, due to new technological processes, the term ceramics now encompasses a wider group of materials, including glass and cements, so clay ...

Ceramic Art: History of Pottery Ceramics

The history of the United States, a country in North America, began with the settlement of Indigenous people before 15,000 BC. Numerous cultures formed. The arrival of Christopher Columbus in the year of 1492 started the European colonization of the Americas. Most colonies formed after 1600. By the 1760s, thirteen British colonies contained 2.5 million people along the Atlantic coast east of ...
