Welcome to the fractions worksheets page at Math-Drills.com where the cup is half full! This is one of our more popular pages most likely because learning fractions is incredibly important in a person's life and it is a math topic that many approach with trepidation due to its bad rap over the years.

Fractions Worksheets - Math-Drills.com

An algebraic fraction is the indicated quotient of two algebraic expressions. As with fractions of integers, the denominator of an algebraic fraction cannot be zero. Two examples of algebraic fractions are $\frac{1}{x}$ and $\frac{x}{x+1}$. Algebraic fractions are subject to the same field properties as arithmetic fractions.. If the numerator and the denominator are polynomials, as in $\frac{x^2+1}{x-1}$, the algebraic ...

Fraction (mathematics) - Wikipedia

Subtracting Fractions With Different Denominators Made Easy! When subtracting fractions with different denominators, we follow the same process we used for adding unlike fractions. But since everybody doesn't start with addition, we provide the same level of detail for subtraction.
