A second policy model consists of separate institutional spheres with strong borders dividing them and highly circumscribed relations among the spheres, exemplified in Sweden by the noted Research 2000 Report and in the US in opposition to the various reports of the Government-University-Industry Research Roundtable (GUIRR) of the National Research Council (MacLane, 1996; cf. GUIRR, 1998).

TED Talk Subtitles and Transcript: The 2007-2008 financial crisis, you might think, was an unpredictable one-time crash. But Didier Sornette and his Financial Crisis Observatory have plotted a set of early warning signs for unstable, growing systems, tracking the moment when any bubble is about to pop. (And he's seeing it happen again, right now.)

This paper traces the history of China's reform of its monetary policy framework and analyzes its success and problems. In the context of financial marketization and the failure of the quantity-targeting framework, the People's Bank of China transformed its monetary policy framework toward one that targets interest rates.
