

Plasma Tv Resolution

Plasma Tv Resolution

Fixed-pixel displays such as plasma TVs scale the video image of each incoming signal to the native resolution of the display panel. The most common native resolutions for plasma display panels are 853×480 (), 1,366×768 or 1920×1080 ().As a result, picture quality varies depending on the performance of the video scaling processor and the upscaling and downscaling algorithms used by each ...

Plasma display - Wikipedia

Plasma TV production ended in 2015. However, many are still being used and sold in the secondary market. As a result, understanding how a Plasma TV works and how it compares to an LCD TV is important.

TVs. Televisions have provided entertainment to individuals and families for generations. You have a full range of options on offer to choose from, including the picture quality of LCD TVs and Plasma TVs.

TVs for sale | eBay

Thanks for a VERY useful site, Carlton, which I have used several times since HD TV sets came out some years back. Just replaced a 5 year old 50" plasma set (that developed a horizontal line) with another 51" plasma set, 720p, (\$399), same brand (it was easy to put all the connections in the

same places and not have to use a different remote).
