

## *Rear View Mirror Dont Look Backenglish Edition*

### **Rear View Mirror Dont Look**

i believe they cut back on that mirror and focused more on the auto dim w/onstar like yours but i think you can just put a 2007 mirror, but two problems their, one you need two more wires for the temp sensor and the temp sensor it self, two the mirror says on it in a orange light passager air bag on/off. but think it wont light up if you dont connect that part. the mirror you can find it in ...

The rear end collision is the most frequent vehicle accident and tailgating and texting are the top 2 reasons you'll end up in one. The results of that stupidity for you are vehicle damage, whiplash, higher insurance rates and a Car Fax report devaluing your vehicle - and no matter what you do, you cannot stop them.

Ok. Start it up so we don't kill the battery and turn on the rear defrost. Check for power at the tan/black wire at the mirror connector. It should have power, and the black wire is ground.

### **Side mirrors defrosters don't work - JustAnswer**

You have to remove the door panel, this panel has a very large amount of plastic pins holding it on. There are three nuts holding the mirror on the door, undo the 6 pin plug first.
