These Habits of Mind seldom are performed in isolation; rather, clusters of behaviors are drawn forth and used in various situations. For example, when listening intently, we use the habits of thinking flexibly, thinking about our thinking (metacognition), thinking and communicating with clarity and precision, and perhaps even questioning and posing problems.

The practice of identifying and analyzing loss exposures and taking steps to minimize the financial impact of the risks they impose. Traditional risk management, sometimes called "insurance risk management," has focused on "pure risks" (i.e., possible loss by fortuitous or accidental means) but not business risks (i.e., those that may present the possibility of loss or gain).
