DO NOT, under ANY circumstance, take this professor. He is the least engaging professor I've ever had at USC. He clicks through the textbook slides so fast that you don't have time to copy anything down.

Brent Daulton at University of South Carolina ...

Prof. Wilber, while a lovely lady who knows what she teaches and tries to help students, writes quizzes and exams that are far tougher than problems in homework or the textbook.

Pinar Wilber at Georgetown University - ratemyprofessors.com

From a virtuous foreman to a sociopathic drifter On Sept. 13, 1848, at around 4:30 p.m., the time of day when the mind might start wandering, a railroad foreman named Phineas Gage filled a drill ...

Phineas Gage neuroscience case: True story of famous ...

1. Introduction. Microwave syndrome (Hocking, 2001, Johnson Liakouris, 1998), a combination of various neuropsychiatric symptoms originally described in persons with occupational exposures to microwave frequency EMFs, has been disputed largely because of the lack of an apparent mechanism for generating these symptoms. It is reported to often include such symptoms as fatigue, headache, insomnia ...

Microwave frequency electromagnetic fields (EMFs) produce ...

A morula (Latin, morus: mulberry) is an early-stage embryo consisting of 16 cells (called blastomeres) in a solid ball contained within the zona pellucida.. A morula is distinct from a blastocyst in that a morula (3-4 days after fertilization) is a mass of 16 totipotent cells in a spherical shape whereas a blastocyst (4-5 days after fertilization) has a cavity inside the zona pellucida ...

Neuroscience (or neurobiology) is the scientific study of the nervous system. It is a multidisciplinary branch of biology that combines physiology, anatomy, molecular biology, developmental biology, cytology, mathematical modeling and psychology to understand the fundamental and emergent properties of neurons and neural circuits. The understanding of the biological basis of learning, memory ...

Home page for Justin Solomon. Other. I am an avid cellist and pianist and studied both at Stanford; I had the pleasure of spending several years with the Palo Alto Philharmonic. I also am interested in the study of older recordings to understand changing musical styles and performance practice; I spent some time doing research into early recordings of Edward Elgar's cello concerto through the ...

In the theory of plate tectonics, the earth's crust is broken into plates that move around relative to each other. As a result of this movement, three types of plate boundaries are formed ...

Plate Boundaries: Convergent, Divergent, and Transform ...

Dolphins may seem cute and cuddly, but dolphin mating and reproduction is a different story. This lesson explores the basics of dolphin mating and reproduction, and delves into some little-known ...

Dolphin Mating & Reproduction - Video & Lesson Transcript ...

Quadriceps femoris is a group of muscles located in the anterior compartment of the thigh (also known as the extensor compartment of the thigh). The muscles are the great extensors of the knee joint, and form the bulk of the anterior thigh, covering almost all of the anterior and both lateral and medial sides of the femur. The quadriceps femoris is an extremely powerful muscle group, essential ...
