Plutonomy & Climate Program. Increasingly few, stupendously wealthy plutocrats have lately made enormous strides toward dominating global governance, finance and national democracies, while actively undermining traditional democratic expressions, such as collective bargaining rights, clean air protections, and services for social safety nets.

INTERNATIONAL FORUM ON GLOBALIZATION

Globalization or globalisation is the process of interaction and integration among people, companies, and governments worldwide. As a complex and multifaceted phenomenon, globalization is considered by some as a form of capitalist expansion which entails the integration of local and national economies into a global, unregulated market economy. ...

Globalization - Wikipedia

The worldwide movement toward economic, financial, trade, and communications integration. Globalization implies the opening of local and nationalistic perspectives to a broader outlook of an interconnected and interdependent world with free transfer of capital, goods, and services across national frontiers. However, it does not include unhindered movement of labor and, as suggested by some ...

Business 308: Globalization & International Management ...

Globalization, as a concept, refers both to the "shrinking" of the world and the increased consciousness of the world as a whole. It is a term used to describe the changes in societies and the world economy that are the result of dramatically increased cross-border trade, investment, and cultural exchange.

Globalization - New World Encyclopedia

Globalization Partners International (GPI) was founded in 2001 by a team of language, technology, project management and business professionals.

Translation and Localization | Globalization Partners ...

Thus, as globalization becomes a more and more common feature of world economics, powerful pro-globalization and anti-globalization lobbies have arisen. The pro-globalization lobby argues that globalization brings about much increased opportunities for almost everyone, and increased competition is a good thing since it makes agents of production more efficient.

What is globalization? - InvestorWords.com

Globalization is a process of interaction and integration among the people, companies, and governments of different nations, a process driven by international trade and investment and aided by information technology. This process has effects on the environment, on culture, on political systems, on economic development and prosperity, and on human physical well-being in societies around the world.

International Security in the Era of Globalization

Trade generates efficiency gains. If we look at country-level data from the last half century we find that there is a correlation between economic growth and trade: countries with higher rates of GDP growth also tend to have higher rates of growth in trade as a share of output.. This basic correlation is shown in the chart below, where we plot average annual change in real GDP per capita ...
